

# “Nothing compares with the simple pleasure of a bike ride”

**John F Kennedy**

The Cyclist's Companion is a definitive guide to all things cycling; from Eddy Merckx to underwater cycling, from cycling inspired songs to cycling in space.

Packed with all the information about bikes and biking you need to know, never knew you needed to know, and perhaps thought you didn't need to know anyway.

Plotting the origins of the bicycle from China over 6,000 years ago, to its modern day popularity, the companion takes readers on a journey with tales from intrepid touring cyclists and amazing cycling adventures. This little cycling compendium is not just for cycling fanatics, but amateurs and novices alike.

“No cyclist's life is complete without this companion, and anyone who isn't a cyclist will be seriously persuaded to become one by merely leafing through its pages. Enjoy!”

**Jon Snow, newscaster and cyclist**
