

MIXED MODE ROUTES AND CYCLE PARKING BENEFIT CYCLISTS

Reading Borough Council

Broad Street & The Oracle (shopping centre) currently have high quality mixed mode routes, effectively “allowing” cycling in a pedestrian area. Although well used and liked by cyclists, some pedestrians are not so keen on these facilities due to a few cyclists not obeying restrictions or generally cycling too fast.

In addition to permitting cycling in these areas, cycle parking is provided and is particularly important in Broad Street. On most days, the cycle parking is full. Reading currently has 1070 cycle parking spaces within its centre.

Peer assessment of this initiative (February 2005)

- ⚡ High-quality mixed mode (pedestrian /cyclist) areas e.g. Broad Street, The Oracle
- ⚡ Amount of cycle parking overall
- ⚡ Cycle parking in The Oracle car park (lockers & racks)
